TERMS OF REFERENCE

1. Introduction

Oulgaret Municipality is maintaining a burial ground at Karuvadikuppam which is 3km, away from the Puducherry town. To avoid pollution due to open air cremation of dead bodies, this Municipality has erected one electric crematorium inside the burial ground at Karuvadikuppam. The building was constructed to accommodate 2 furnaces. In order to ensure pollution free disposal of dead bodies a modern crematorium was installed by Oulgaret Municipality which was brought into public utility during 2007. The main furnace of this crematorium is powered by High Tension Electrical Power supply to maintain the temperature of this furnace at 1000⁰c for 10 hours and 650⁰c for the remaining hours of the day. The disposal of bodies through traditional methods is patronised by the public because of which electrical furnace got defunct due to non utilisation. Hence, this Municipality erected Liquefied Petroleum Gas (LPG) crematorium in the crematorium building. Now this Liquefied Petroleum Gas (LPG) based crematorium is functioning at present. In the current COVID-19 pandemic, the No. of persons who succumb to COVID-19 is increasing day by day and it has become imperative on the part of Government to increase the facility for safe disposal of dead bodies infected by COVID-19. At present the filaments and refractory brick lining of the furnace and Programmable Logic Controller (PLC) unit of the electrical crematorium are de-funct. Hence, it is proposed to convert the existing de-funct electrical furnace into Liquefied Petroleum Gas Fired furnace in a most economical way by retaining most of the existing structure for meet out the additional load.

2. Scope of Work:

The existing de-funct electrical furnace in the modern crematorium at Karuvadikuppam in Oulgaret Municipality is proposed to be converted into Liquefied Petroleum Gas Fired funeral by the following procedure (i.e supply and conversion of the existing electrical furnace to LPG fired system with the materials).

- 1) Removal of worn out furnace lining and providing new lining with high heat resistant refractory bricks.
- 2) Replacement of body resting cast-iron bricks.
- 3) Installation of automatic burners with diaphragm valves, solenoid valves, ignition transformers, flame sensors and in built blowers.
- 4) Installation of manually operated high pressure tube burners made of heat resistant stainless steel.
- 5) Installation of pipeline, hose connection to facilitate Liquefied Petroleum Gas supply to the furnace.

- 6) Servicing and installation of manually operator of trolley for smooth release of dead body into the furnace.
- 7) Fabrication and installation of new panel board.
- 8) Servicing or Scrubbing system, induced draft blower and chimney.
- 9) Replacement of water pump station.
- 10) Wiring of motors in the existing electrical crematorium.
- 11) In case of installation materials usage at some places to be borne by the suppliers.

The equipments /Components specified by the bidder shall ensure the following Technical specification while converting the existing defunct electrical furnace to Liquefied Petroleum Gas fired furnace. The detailed specification of the equipments to be installed is provided in the Financial Bid (BOQ).

Technical Specifications:

1. Temperature in primary chamber : 1200 ± 50°C
2. Temperature in secondary chamber : 1800 ± 50°C
3. Burner system : Full length burners on either side of primary and secondary chamber
4. Gas pipe line : Made of Copper with pressure gauge
5. Insulation : With standing 1200°C
5. Furnace bed & Structure : Stainless steel, Strong, High quality of conforming to IS8 quality alumina/fire bricks with air holes to secondary chamber.
6. Cremation time / body : 60-90 minutes.
7. Trolley : Stretcher type trolley with rollers moving on ball bearing for easy sliding in of the body into the primary chamber.
8. Temperature Sensor : Chromium/Alumina Thermocouple-one number in each chamber
9. Temperature control and indication : Solid state digital type temperature indicator controller 0 to 2000°C in each chamber

10. Safety controller : Solid state non-indicating controller
0 to 1800°C in each chamber to take care
of control activity in case of failure.
11. Painting : Steel items to be enamel painted

WARRANTY:

The successful bidder (contractor) shall undertake the work of conversion of de-funct electrical furnace into Liquefied Petroleum Gas Fired Furnace and commission the same within 20 days of receipt of work order. The successful bidder (contractor) shall provide warranty for one year in respect of the equipment/machinery/spares supplied by him and any repair shall be undertaken free of cost during the warranty period.

During the 2nd and 3rd year after commissioning the contractor is expected to undertake all required repairs and replace spares costing less than Rs.5,000/- at no cost to Oulgaret Municipality.

Tender Conditions

A. Eligibility Criteria:

The bidder must have executed similar type of LPG fixed furnace works in crematorium in at least three Local bodies in Puducherry Region (or) Tamil Nadu each work of value not less than 30 lakhs in the past three years with complete pollution control equipments and ensured to satisfaction of the clients. Proof of such experience shall be enclosed. Failure to meet the above qualification criteria shall lead to disqualification of tender at technical evaluation stage itself and the bidder's offer will not be considered.

B. General Conditions:

1. Bidder must satisfy the eligibility criteria stated above in this tender document.
2. The proposal must be kept valid for acceptance for 90 days from the last date of submission of proposals as stated in the Tender Notice. Any bidder with drawing is proposal before the said period shall forfeit EMD remitted. The Commissioner, Oulgaret Municipality will make his best effort to issue work order within the period.
3. Necessary statutory approvals required for execution for the project from Pondicherry Pollution Control Committee (PPCC) or from any other institution organization, if required, shall be the responsibility of the Oulgaret Municipality.

4. PART – I - TECHNICAL BID must consist of:

(a) ORGANISATION DETAILS

1. Name and address of the Contractors/Firms/Individuals/Co-operative Societies.
2. Name of Key personnel/Telephone Nos./Email I.D. and existing manpower details.
3. Present activities / Business of the Organization.
4. Type of Organization (Proprietors/ Partnership/ Private Ltd.,/ Public Ltd., and Co.
5. Date of Incorporation
6. An undertaking to the effect that the bidder has not been black listed by any Government Department/Agency/Society. The undertaking shall be in stamp paper of Rs.20/- value and signed before a Notary public. Failure to submit the undertaking will lead to rejection of the bid.

(b) TECHNICAL CAPABILITY OF THE FIRM.

- a) The bidder must have executed similar type of LPG furnace works in crematorium of at least three Local bodies in Puducherry Region (or) in Tamil Nadu each work of value not less than 30 lakhs for the past three years with complete pollution control equipments and ensured to satisfaction of the clients.
- b) Copies of work orders with value of work executed shall be uploaded.
- c) Copies of performance certificate shall be uploaded.

The bidder shall provide the above details as per the proforma for submission of technical bid given at Schedule-I appended herewith. The undertaking for not being black listed shall be given in proforma at Schedule-II.

The technical bid in Schedule-I, the undertaking in Schedule-II and the check list in Schedule-IV shall be neatly prepared, signed/authenticated in every page with company seal and uploaded as single file.

5. Part-II Financial Bid:

- a) Tender with any condition, including conditional rebate, are liable to be rejected.
- b) Cost of all the items should be mentioned clearly and individually in the Commercial offer (Schedule -III) only.
- c) The commercial bids of only the technically qualified bidders shall be considered for further processing.
- d) The Commissioner, Oulgaret Municipality reserves the right to accept the offer in full or in parts or reject summarily or partly thereof.
- e) Prospective bidders/tenderers shall inspect the de-funct electric furnace and equipments proposed to be converted into LPG fired furnace at Karuvadikuppam burial ground in Oulgaret Municipality before submitting their bids.
- f) Technically qualified bidder quoting the lowest rate will be selected for issue of work order based on the following conditions.
 - (i) The bidder has to quote for the conversion of electrical furnace into to Liquefied Petroleum Gas fired furnace as detailed in the scope of work which envisages supply and erection of 19 items/equipments, etc., and separately quote for operation and maintenance of the Liquefied Petroleum Gas fired furnace for each year for a period of three years.
 - (ii) Lowest quote will be decided based on the quote given by the bidder for conversion of electric furnace to Liquefied Petroleum Gas fired furnace and cost of operation and maintenance for the three years.

$$\text{Lowest Quote} = \begin{array}{l} \text{Cost of conversion of} \\ \text{electrical furnace to} \\ \text{Liquefied Petroleum Gas} \\ \text{fired furnace} \end{array} + \begin{array}{l} \text{Cost of operations} \\ \text{and maintenance for} \\ \text{three years} \end{array}$$

- (iii) The cost of operation and maintenance for the second and third year may be considered after satisfactory performance of the Liquefied Petroleum Gas fired furnace and proper operation and maintenance undertaken by the successful bidder in the first year.

6. BIDDING through E – Tendering System - ONLINE SUBMISSION OF BIDS

- 6.1 The bidding under this contract shall be electronic bid submission through website <http://pudutenders.gov.in>. Detailed guidelines for viewing bids and submission of online bids are given on the website. The invitation for Bids under this procurement shall be published on this website.
